

13.3" FRONT LIGHT GUIDE for e-paper displays

FLGP laminated onto E-ink 13.3" display (ED133UT2)

**Crystal clear,
perfectly
uniform
frontlight**

PERFORMANCE

- > Contrast ratio: FL ON = FL OFF
- > Uniformity: > 85 % (VESA 9-point)
- > Color: $\Delta u'v' \leq 0.008$ (CIE 1976)

BENEFITS

- > Readability – Excellent uniformity, color performance and contrast
- > Sustainability – Ultra thin (0.5 mm) and highly energy efficient
- > Customizable – FLGP outline and number of LEDs are modifiable
- > Cost effective – High accuracy UV-R2R mass-manufacturing process

Nanocomp, with over 20 years of experience in micro- and nano-optics, is the frontrunner and technical leader in the field. We offer our clients one-stop solutions from design to mass production by using our exclusive roll-to-roll manufacturing technique.
