

DIRECTIONAL LIGHT GUIDE FILM for lighting applications

Angular luminance distribution

Standalone operation of 8" directional light guide

**High efficiency
and directivity**

**For displays and
all other lighting
applications**

BENEFITS

- > Can be used independently without other optical films
- > See-through component even with lights on
- > High accuracy UV-R2R mass-manufacturing process - Cost effective

Nanocomp Ltd is a high-tech company with 20 years of experience in the field of nano- and micro-optics. Nanocomp provides versatile solutions for global customers focusing on design, tooling and mass production of film optics.
